Allowable Subject Matter

1. Claims 1-45 are allowed.
2. The following is an examiner's statement of reasons for allowance: a search of the prior art fails to teach or render as obvious the claims as a whole, particularly, a computer system that is connected to a network wherein when it has exhausted its credit, it send an identifier to the server in order to receive a token that prevents it from going into a special mode; nor does the prior art teach comparing an identifier to a computer system to determine if it has been reported lost, wherein the token containing a credit will be generated and sent to the system, as verification that the system is not lost or stolen; or generating a token when the exhausted credit needs to be verified as a trusted piece of hardware; as recited in claims 1, 15, 26, 34, 40, and 43-45.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
